November 20, 2025

Subject: Request for Deadline Extension – Response to Preliminary Adequacy Review for
Mayhew Pit, Permit No. M-2024-054

Dear Ursula Armstrong,

Riverside Aggregates LLC respectfully requests a 23-day extension of the current deadline to submit our response to the Preliminary Adequacy Review for the Mayhew Pit, Permit No. M-2024-054. The current deadline is November 21st, 2025, and we are requesting an extension through December 12th, 2025.

We're on schedule to complete the response by the current deadline but want to provide enough time for the Division to thoroughly review the response. We've been working with numerous consultants and have put a lot of time into our response and hope the Division takes this into consideration.

We appreciate your consideration of this request. Please do not hesitate to contact us at 719-336-3313 or matthew@carriganinc.com, mcarrigan@carriganinc.com if you require any additional information.

Permit Name: **Mayhew Pit**
Permit Number: **M-2024-054**
County: **Bent**

Thank you for your time and understanding.

Respectfully submitted,

Riverside Aggregates LLC
