**Re: Technical Revision TR153 Approval  
Cresson Project, Permit No. M-1980-244**

Dear Bjorn Meyer,

On December 1, 2025, the Division of Reclamation, Mining and Safety approved the Technical Revision TR153 application submitted to the Division on October 20, 2025, addressing the following:

*VLF2 Phase 3 Stage B.1 Record of Construction Report*

The terms of TR153 approved by the DRMS are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect. With this approval, the construction of the VLF2 Phase 3 Stage B.1 was determined to be in compliance with the approved specifications. The Certification is accepted by the DRMS pursuant to Rule 7.3.2 of the Rules and Regulations of the Colorado Mined Land Reclamation Board.

The Division has reviewed the change associated with TR153 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.
