Hi Nicole,

We received the attached comments from the Colorado Parks and Wildlife (COMMENTS-CPW\_PERMIT FILE - 3262012, 14755 PM-CMB.pdf) discussing additional plant species for reclamation. I know Bill is meeting with Rick Romano next week and I thought it would be a good idea if he had these comments when he meets with Rick. These comments should be addressed in the adequacy review response you and/or Bill are working on now.

I've also attached PDF versions of other comments we've received from: a) the State Division of Water resources (regarding groundwater), b) State Historical Preservation Office (regarding cultural resources), and c) the Bureau of Land Management (which I believe you've already seen).

Please let me know if you have any questions.
