Tim:

Attached please find as-built plans for the Pueblo East Pit Phase II slurry wall I obtained from Hall Irwin on Thursday.

Subject: Pueblo East Pit Surety Reduction Comments & Request for As-Builts

Andre,

I talked with Gary this afternoon and let him know the Division will approve the requested surety reduction. A letter to that effect is going out in today's mail.

The only comments the Division received were from the Office of State Engineer. I have attached OSE's comments to this letter for your information.

Finally, the Division is requesting a map/plan view showing the location of the constructed slurry wall for reference. Should future mine activities and/or revisions have the potential to impact the slurry wall or post-mine land use, the Division will need to be able to locate the slurry wall. An as-built plan view depicting horizontal control points/wall corners and/or survey points should suffice.

If you have any questions, please contact me.

Thank you,

Tim Cazier, P.E.
