Re: Burton Pit, Permit M-1987-013, Application for Conversion (CN-1), Incomplete.

Dear Mr. Martinez,

This office received the permit conversion application named above, and has reviewed it for completeness. The following item was found to be missing from the application materials:

Exhibit Q – Proof of Mailing Notices (Rule 6.4.17)

The proof of mailing the notice to the Rio Grande Conservation District was not included in the application. There is a page included here, but it a second copy of the proof of mailing notice to the Board of County Commissioners, so it appears that an inadvertent substitution occurred. Please provide the proper proof of mailing the notice.

The item described above must be received before the application can be considered complete. Please provide two copies of the required item. All materials and correspondence may be mailed directly to me at the Division's Durango Field Office: 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

After the application is found complete, I will contact you regarding a pre-operation inspection of the proposed permitted area.

Sincerely,

Bob Oswald
Environmental Protection Specialist
