Subject: Pueblo East Pit Surety Reduction Comments & Request for As-Builts

Gary:

On April 4, 2012, Tim Cazier requested the as-built plan view depicting horizontal control points/wall corners and/or survey points of the Pueblo East Pit Phase 2 slurry wall. On April 9 you informed me that the as-built plan I sent Tim on April 7 was missing the horizontal control points.

Attached please find a pdf document that includes a GPS map and associated waypoint positions of the Pueblo East Pit Phase 2 slurry wall that I walked on Monday. Please let me know if the attached info is sufficient to send to Tim.

Thanks,

Andre Laroche
