Subject: Schwartzwalder Mine (M-1977-300), Amendment AM-03

John,

As I told you during the inspection on Wednesday, I spoke on the phone on Tuesday 5/17/12 with Frank Koontz of Jefferson County Open Space. He called me to express his concern with erosion control during drilling operations in the proposed new affected areas of AM-03. He said a grading permit may be required by Jefferson County.
