Technical: Revision Weed Control

On Friday, April 6, 2012 Dirt Merchant, Inc, sent a rubber tired backhoe to it's gravel pit area and removed all the noxious, problematic weed infestations that were observed during the site inspection on March 7, 2012.

Dirt Merchant, Inc, will monitor pit area and continue to remove any and all noxious and problematic weeds as needed on a monthly visual site inspection by owners throughout the remaining pit life.
