Re: DRMS Rule 4.17 for Permit No. M-1980-047

MAY 17 2012

GRAND JUNCTION FIELD OFFICE  
DIVISION OF  
RECLAMATION MINING & SAFETY

Dear Mr. Marshall:

The DRMS approved Exxon Mobil Corporation's (ExxonMobil) request to release a portion of the permitted area from further reclamation responsibility per submitted Revision No. AR-1 (see attached letter dated September 7, 2007). Summarized in the attached letter is a clarification of the total permitted area containing 6,084.2 acres. The referenced 1984 Amendment described the starting point of the 6,084.2 acres incorrectly as "Beginning at the northeast corner of said Section 6, Township 5 South, Range 95 West of the 6<sup>th</sup> Principal Meridian". It should have been described as "Beginning at the northwest corner of said Section 6, Township 5 South, Range 95 West of the 6<sup>th</sup> Principal Meridian". Refer to ATTACHMENT A and ATTACHMENT A-1 depicted in yellow.

ExxonMobil is requesting the reduction of and reclamation release of 372.146 acres as described on the attached ATTACHMENT B. The acreage to be removed from the permitted boundary is shown on ATTACHMENT B-1 outlined in yellow. The requested reduction is located in the southeast corner of the Colony Resource Block along East Middle Fork Creek. The 372.146 acre East Middle Fork tract does not contain any of the 527 acres of remaining "affected land" as referenced in the attached letter and illustrated on Attachment B-2. The Permit point of compliance remains the same as originally permitted, i.e. the southern boundary of drainage in the SW/4 of Section 18, Township 5 South, Range 95 West of the 6<sup>th</sup> Principal Meridian. Should the DRMS approve this request, the Colony Resource Block Permitted Area shall become 5,712.054 acres as depicted in yellow on ATTACHMENT C and described on ATTACHMENT C-1.

Please feel free to contact me at (281) 654-6246 if you have any questions.

We look forward to hearing from you soon and appreciate your assistance with this matter.

Best regards,

**Re: Colony Shale Oil Pro, Permit No. M-1980-047, Acreage Reduction Approval, Revision No. AR-1**

Dear Mr. Smith:

On September 5, 2007, the Colorado Division of Reclamation, Mining and Safety approved ExxonMobil's request for release of a portion of the permit area from further reclamation responsibility.

The permit area was reduced to 6,084.2 acres, through the release of the "Parachute Properties" and clarification of the permit area acreage (6,084.2 acres) as described in the 1984 Amendment. This permit action also reduces the affected acreage within the 6,084.2 acre permit area to a total of 527 acres through release of 412 acres of affected land within this area that were either revegetated or reclaimed to an alternate post-mining land use such as a permanent road, reservoir, dam, etc. As requested by ExxonMobil, the reclamation financial warranty is not being reduced as a result of this release. Because the permit is not totally released, ExxonMobil is still liable for filing annual reports and fees.

If you have any questions, please contact me at (970) 243-6368.

Sincerely,

Steve S. Shuey  
Environmental Protection Specialist
