

COLORADO DIVISION OF RECLAMATION, MINING AND SAFETY
MINERALS PROGRAM INSPECTION REPORT
PHONE: (303) 866-3567

The Division of Reclamation, Mining and Safety has conducted an inspection of the mining operation noted below. This report documents observations concerning compliance with the terms of the permit and applicable rules and regulations of the Mined Land Reclamation Board.

MINE NAME: Ellison Pit	MINE/PROSPECTING ID#: M-1978-170	MINERAL: Sand and gravel	COUNTY: Delta
INSPECTION TYPE: Monitoring	INSPECTOR(S): Travis H. Marshall	INSP. DATE: May 23, 2012	INSP. TIME: 09:00
OPERATOR: Delta County	OPERATOR REPRESENTATIVE: Larry Record	TYPE OF OPERATION: 112c - Construction Regular Operation	

REASON FOR INSPECTION: Normal I&E Program	BOND CALCULATION TYPE: None	BOND AMOUNT: \$0.00
DATE OF COMPLAINT: NA	POST INSP. CONTACTS: None	JOINT INSP. AGENCY: None
WEATHER: Windy	INSPECTOR'S SIGNATURE: 	SIGNATURE DATE: May 29, 2012

GENERAL INSPECTION TOPICS

This list identifies the environmental and permit parameters inspected and gives a categorical evaluation of each. No problems or possible violations were noted during the inspection. The mine operation was found to be in full compliance with Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials and/or for Hard Rock, Metal and Designated Mining Operations. Any person engaged in any mining operation shall notify the office of any failure or imminent failure, as soon as reasonably practicable after such person has knowledge of such condition or of any impoundment, embankment, or slope that poses a reasonable potential for danger to any persons or property or to the environment; or any environmental protection facility designed to contain or control chemicals or waste which are acid or toxic-forming, as identified in the permit.

Y = Inspected and found in compliance / N = Not inspected / NA = Not applicable to this operation / PB = Problem cited / PV = Possible violation cited

OBSERVATIONS

This inspection was conducted as part of the normal program established by the Colorado Division of Reclamation, Mining and Safety. The Ellison Pit is located east of Delta, Colorado off of G Road. The site is a 112c-phased operation. Larry Record of Delta County accompanied the inspector during the inspection.

The mine identification sign is in place and in compliance with rule 3.1.12. The sign is located on a post at the main entrance at both mine locations. The permit boundaries are comprised of fence posts that are easily identifiable around the entire perimeter of the mine.

The pit is currently active. Various pieces of excavation, hauling and material processing equipment were observed during the inspection. Adequate amounts of topsoil and overburden appeared to be stockpiled for the approved reclamation plan adjacent to the eastern permit boundary. Stockpiles of processed material were present during the inspection. Current total disturbance at the Ellison Pit is estimated to be approximately 10 acres.

No onsite or offsite stormwater erosion was observed during the inspection.

No problems or possible violations were observed during the inspection.

Responses to this inspection report should be directed to Travis Marshall at the Division of Reclamation, Mining and Safety, Grand Junction Field Office, 101 South 3rd Street, Room 301, Grand Junction, Colorado 81501, phone no. 970-241-2042.
