Mining & Safety
to

High Mountain Mining Company, LLC is applying for a technical revision (TR) to their permit to construct a 13,600 square foot building on their currently permitted area to house the company's processing equipment and serve as the company's business office. The proposed building is a pre-engineered - LM Kersting of Buena Vista, Colorado provided the engineering and design of the structure including design of the footings. LM Kersting will oversee all construction activities. All local permits have been obtained.

LOCATION ON PERMITTED AREA:

Please refer to the attached maps that show the exact location of the proposed building:

Map Number 1:

Wide view of the proposed location "yellow rectangle" and its relationship to the existing processing facility (small white building) adjacent to the north side of the proposed building.

Map Number 2:

Close up of proposed location "yellow rectangle". The exact GPS coordinates of the corners are shown below:

NE Corner – 13S 408987E, 4348693N
SE Corner – 13S 409001E, 4348672N
NW Corner – 13S 408940E, 4348664N
SW Corner – 13S 408954E, 4348643N

Map Number 3:

Close up of proposed building location on topo map.

BUILDING & FOUNDATION SIZING:

Building Specifications:

Square Feet – 13,600
Cubic Feet – 376,000

Foundation Specifications:

Footings (Reinforced) – 149 Cubic Feet
Floor Slab – 6" Thick Reinforced – 6,800 Cubic Feet

Please find a check attached for the TR Application Fee in the amount of \$175.
