**RE: Chambers Gravel Pit, Permit No. M-1979-075, Reclamation Plan**

Dear Mr. Burkey:

On August 17, 2012 the Division of Reclamation, Mining and Safety (Division) received your request to extend the deadline for submission of a final Reclamation Plan for the Chambers Gravel Pit. As required by the U.S. Army Corp of Engineers (USACE) permit, subsequent to the recent bank stabilization efforts that were performed pursuant to the USACE permit and TR3, bank stabilization and sediment transport are to be monitored for three years, with the first monitoring report due in December 2012. The Division had initially required that a final Reclamation Plan be submitted for this site by September 10, 2012. This deadline has been extended to March 31, 2015 in order to allow for data collection during the three year monitoring period, prior to development of the final Reclamation Plan.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

A blue ink signature of Dustin Czapla, written over the word "Sincerely,".
