Mr. Cunningham, Mark Mayer called me this morning stating you had concerns about his explosives magazines near Fairplay. Mark is permitted with the State of Colorado and his magazines have been inspected by both the State and the ATF. At the time of the inspection all his inventory was correct and met the table of distances to both the highway and buildings. If you have any questions or concerns give me a call. David Knight #-303-514-3281.
