Re: Camp Bird Mine, Permit M-1982-090, Technical Revision TR-4, Clarification of Specific Item in Adequacy Review Letter.

Dear Mr. Thompson,

Thank you for your letter dated today, in which you ask for clarification of a point I made in my adequacy review letter. In my letter I described when certain (14 level) portal rehab activities could commence. You asked if those activities were limited to only the portal or if they would also include underground rehab in the drift.

My intent was to include underground rehabilitation in the drift to be included in the activities allowed upon approval of the technical revision.

I apologize about the misunderstanding I created, and I hope this answers your question. If there are any further questions, you may contact me at the Division's Durango Field Office, 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

Sincerely,

Bob Oswald
Environmental Protection Specialist
