Thanks Julie.

As long as Martin is working towards a longer lasting solution and construction is completed prior to the 2013 runoff (if there's any significant snowfall) or the summer thunderstorm period, I'm OK with granting an extension. Your letter requests an extension to 1/31/12. I think you meant 1/31/2013. Please confirm you'll complete construction by the end of January, 2013.

Thanks.

Tim

Just noticed that this didn't get mailed out Friday and thought you would be wondering what we are doing. Please let me know if this is not acceptable. We would like to do it correctly this time so we aren't re-doing it again.
