Dear Mr. Bergmann,

I have decided to extend your Plan of Operations for another year due to your unforeseen delays in operating on the Sara Rose Unpatented Mining Claim. Your new expiration date is **December 31, 2014**. This is with the understanding that you will be operating strictly within the bounds of your current Plan of Operations. If you make any changes to your operations, you will need to submit a modification for approval to this office.

If you have any questions, please contact Marcia Rose-Ritchie at 719-553-1477 or email her at [mroseritchie@fs.fed.us](mailto:mroseritchie@fs.fed.us). Otherwise, please contact me at 719-836-2031.

Sincerely,

KRISTEN SEXTON

Subject: One-year extension to Authorization of Sara Rose Unpatented Mining Claim Plan of Operations

To: Sara Rose, Mike Bergmann, 2810 File

Mike Bergmann, owner and operator of the Sara Rose Unpatented Mining Claim, has asked for an extension to his Plan of Operations (POO) due to unforeseen delays in his operations in 2012. His current POO expires on October 1, 2013. To date, the only activity on the site has been widening of the access road to the claim adit. Mr. Bergmann is asking for more time to fully work his current POO and is not asking for any additions or changes.

In reviewing his POO and discussing this with some of the district specialists, and Bob Thompson, Senior Geologist with CNO, I feel it is reasonable to extend the Sara Rose Unpatented Mining Claim POO another year, until December 31, 2014. I am changing the expiration date to December 31<sup>st</sup> to be consistent with all other recently authorized Plans of Operation expiration dates.
