RE: Cotter Corporation Proposed Schedule for Updates to JD-8 Mine Stormwater Controls

Mr. Means:

Cotter Corporation is planning to have a contractor at the JD-8 Mine site working on updating stormwater controls on September 19, 2012. These are the stormwater controls proposed in the recently approved Mine Permit Amendment.

It is estimated that this work will only take one to two days to complete.

If you have further questions, or comments regarding the proposed work, please call me at Cotter's Nucla office, 970-864-7347.

Sincerely,

Glen Williams  
Vice President of Mining  
Cotter Corporation
