RE: Extension Request - Regular 112
Operation Reclamation Permit,
Western Gravel E&P Waste Disposal Facility

Dear Mr. Marshall:

On behalf of Western Gravel, LLC (WG), NWCC, Inc. (NWCC) is requesting a 90-day extension to the decision regarding the amendment application associated with Permit No. M-20-08-070. Based upon your November 28, 2012 correspondence, *112 Construction Materials Reclamation Permit Amendment Application, WRC Gravel Pit, Permit No. M-2008-070, AM-1, Preliminary Adequacy Review*, issues must be addressed before the application can be considered technically adequate and approved. This extension request is intended to provide time to respond to these issues and must be submitted to you by December 10, 2012.

If you have questions or any concerns, please do not hesitate to contact me. We look forward to continue to work with you.

Sincerely,
NWCC, Inc.

Gary R. Webber, P.G.
Senior Environmental Consultant
