Re: Revenue Mine, File M-2012-032, 112d-1 Application, Extension of Decision Date.

Dear Mr. Williams,

The Division's decision date for the 112d-1 application named above was set for December 15, 2012. However, the packets of new adequacy response materials received by the Division on November 29, 2012 and on December 6, 2012 were fairly voluminous. Those materials are currently being reviewed by Division staff, and more time will be needed to complete the review.

Therefore, in order to ensure that sufficient time is available for completing the review and that all outstanding technical questions are addressed adequately, this office has extended the decision date by 30 days, and the date is now reset to January 14, 2013. The application materials and adequacy responses received to-date have been prompt and well-prepared, and if further submittals are similar to that, we are confident that the adequacy review will be concluded before that date.

As this final review continues we will contact you if there are any additional questions. For any submittals or questions of yours, I may be reached at the Division's Durango Field Office: 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

Sincerely,

Bob Oswald  
Environmental Protection Specialist
