Tim,

Per your inspection report dated 12/7/2012 for the Portland Quarry please find attached to this email photos showing the mine identification sign we installed at the mine entrance to comply with Section 3.1.12(1) of the DRMS rules. The sign includes the name of the operator, the reclamation statement, and the permit number.

If there are any questions or concerns with the sign we installed please let me know.

Thank you,

Joe
