Re: DRMS File No. M-2012-048
Pickard Pt, 110 applcation

Dear Mr. O'Donnell,

I am including the two items needed to complete our application of November 156, 2012. Mr. Pickard is now in the nursing home. Attached is a notarized statement from Mr. Pickard's Co Trustee, Rita Rueb, giving permission for Kit Carson County to mine at the site shown in the application.

Also attached is map showing where there was an existing disturbance at the proposed mining site. The Pickards have taken some materials for their own purposes in past years.

The Reclamation Plan Map has been amended to show that the 4" of existing top soil will be stockpiled and then replaced over the site when mining is completed.

Hopefully this completes the items needed to declare the application complete. Please let me know when I can proceed with publication and notifications to adjoining landowners. My contact numbers are in the application. My home e-mail is rjschafer@haxtuntel.net. My work e-mail is philcoadmin@pctelcom.coop. Thank you.

Sincerely,

Randy Schafer
