Re: Revenue Mine, File M-2012-032, 112d-1 Application, Extension of Decision Date, and Adequacy of Application.

Dear Mr. Williams,

The Division's decision date for the 112d-1 application named above was set for January 15, 2012. However, due to the need to provide a required piece of documentation that could not be provided until January 16, 2013, you requested that the decision date be extended by one day. Your extension request was received by the Division on January 15, 2013. The Division has approved the request for extension, and the decision date was reset for January 16, 2013.

The documentation mentioned above is an administrative requirement and consists of the proof of public filing with the county clerk of permit application-related materials. These specifically include the Division's stormwater concerns and your stormwater-related responses. Those materials had been previously received by the Division and found adequate, but the Rules required that they are publicly filed and a receipt obtained therefor, which must be delivered to the Division prior to the Division's decision. Said receipt was received by the Division today, January 16, 2013. As of this date there are no further outstanding adequacy concerns.

If you have any questions, I may be reached at the Division's Durango Field Office: 691 CR 233, Room A-2, Durango, CO 81301; telephone 970-247-5193.

Sincerely,

Bob Oswald  
Environmental Protection Specialist
