RE: Yule Marble Quarry, Permit No. M-1999-058, Technical Revision (TR2) Request

Dear Mr. Lewicki:

On January 14, 2013 the Division of Reclamation, Mining and Safety (Division) received the technical revision request (TR2) for the Yule Marble Quarry permit. The operator wishes to add a new portal #6 to the mining plan. Page 19 of the TR2 package (enclosed) is the engineer's certification regarding the safety of portals #5 and #6. This page was not signed. Please sign the certification page and return to the Division.

If you require additional information, or have questions or concerns, please contact me at the Division's Grand Junction Field Office.

Sincerely,

A handwritten signature in black ink, appearing to read "Dustin Czapla", with a long horizontal flourish extending to the right.

Cc:

I, Greg Lewicki, PE, have personally examined the mine and the location of the new Portals #5 and #6 and I certify that the stipulations stated above will make the portal safe, under the condition that as the portal is developed, rock bolts or other measures will be installed, if needed, to provide a safe roof at the portal for any special conditions that may be encountered.

Greg Lewicki CO PE 20335

Date

Mine structures are described in the Mine Plan section of this application.
