To: Randy schaffer <Philcoadmin@pctelcom.coop>

Randy,  
Attached to this email are two public comments for the Pickard Pit; one of the comments is from the Department of The Army Corps of Engineers and the other comment is from the State Historic Preservation Office. Thank you again for being able meeting with us yesterday on such short notice.

**RE: Notice of 110 Construction Materials Reclamation Permit Application Consideration Kit  
Carson County, Pickard, File No. M-2012-048  
Corps File No. NWO-2013-112-DEN**

Dear Mr. ODonnell:

Reference is made to the above-mentioned project located at 39.31626; -102.69816m Kit Carson County, Colorado.

This project has been reviewed in accordance with Section 404 of the Clean Water Act under which the U.S. Army Corps of Engineers regulates the discharge of dredged and fill material, and any excavation activity associated with a dredge and fill project in waters of the United States.

Based on the information provided, a Department of the Army (DA) Permit will not be required for this project. Although a DA Permit will not be required for the project, this does not eliminate the requirement that other applicable federal, state, and local permits be obtained as needed.

If there are any questions call **Mr. Terry McKee** of my office at **(303) 979-4120** and reference **Corps File No. NWO-2013-112-DEN**.

Sincerely,

Timothy T. Carey  
Chief, Denver Regulatory Office

Re: Notice of 110 Construction Materials Reclamation Permit Application Consideration Kit Carson County, Pickard, File No. M-2012-048 (CHS #63328)

Dear Mr. O'Donnell:

Thank you for your correspondence dated January 9, 2013 (received by our office on January 14, 2013) regarding the subject project.

A search of the Colorado Cultural Resource Inventory database indicated that no cultural resource inventories have been conducted in the vicinity of the proposed permit area, and no historic properties have been recorded therein. Our files contain incomplete information for this area, as most of Colorado has not yet been inventoried for cultural resources. As a result, there is the possibility that as yet unidentified cultural resources exist within the proposed permit area.

Should human remains be discovered during mining activities, the requirements under State law CRS 24-80 part 13 apply and must be followed.

Thank you for the opportunity to comment. If we may be of further assistance, please contact Mark Tobias, Section 106 Compliance Manager, at (303) 866-4674 or [mark.tobias@state.co.us](mailto:mark.tobias@state.co.us).

Sincerely,

  
for Edward C. Nichols  
State Historic Preservation Officer  
ECN/MAT
