Durango Field Office  
Division of Reclamation,  
Mining and Safety

The only activity in the pit during 2012 was the sale and/or removal of material that was mined and crushed during 2011. About 90% of the 10,000 ton crushed for Montrose County in 2011 was removed. About 60% of the 10,000 ton crushed for us in 2011 was sold and removed.

We have not decided if a crusher will be moved back into the pit during 2013. If we do not crush in 2013, we most likely will in 2014.
