Hello Tim,

Thank you for sending me a copy of the 2-6-13 site inspection report for the T.H.E. Aggregate Source granite mine site. I appreciate you including me in the reporting loop. For the record, please note these minor details you stated in your field report that I would like to clarify. Although the mine was at the time of inspection not operating a wash plant facility, the site is permitted to do so and does operate a washing circuit as demand requires. In addition, T.H.E. does use a contractor for drilling and all explosives are delivered to the site by a blasting contractor, however, T.H.E. Company performs all blasting at the site using their own licensed and certified personnel. I am sending you an e-mail copy of the acreage reduction request and will follow up with a certified mailing. I thought you might like to look over the request and comment if you wish to see any changes or additional information before I mail the hard copy to you. Thanks.

Sincerely,

KSKlco

Azurite, Inc.
