Re: **Munger Canyon Mine (Permit No. C-1981-020)**
Permit Renewal No. 6 (RN-6)

Dear Ms. Bishop:

The Division of Reclamation, Mining and Safety has completed an AVS check for the permit issuance for Munger Canyon Mine RN-6 application. The ownership and control information provided by the operator is not consistent with the information in AVS. We have the following adequacy comment that needs to be addressed before the permit can be issued.

1. On the Officer/Directors for CAM Mining, LLC and Rhino Energy LLC the operator has Whitney R. Calvert listed and AVS has her listed as Whitney Kegley. The Division will need an updated Officer/Directors list with her name change. Please submit revised page(s) for inclusion into the permit application package.

If you have any questions, please contact me.

Sincerely,

Michael P. Boulay
Environmental Protection Specialist
