RE: H & H Stone, H & H Quarry #1, File M-1998-005 and H & H Quarry #2, File M-1998-080

Dear Andrea Holley,

The Division of Reclamation, Mining and Safety (Division) received your request for surety release for the H & H Quarry #1 on March 19, 2012. Division records, however, do not indicate that you have authority to represent Betty Holley, the permittee for this site. Although the Division does possess a letter indicating your authority to represent Fred Holley, for the Holley Gravel Pit (which is now terminated), it is specific to that particular permit.

If you desire to represent Betty Holley for the above sites, please send the Division a notarized letter, signed by Betty Holley, giving you the authority to represent her on both of these permits. Please send the Division the completed annual report form for the H & H Quarry #1. The Division will accept the check you sent, in the amount of \$393.00, as the annual fees and the civil penalties for the late annual fees and report for the H & H Quarry #1. Although the amount is less than the total with the civil penalties, we will accept it as paid in full. Send us another release request for this site, and, if you have the photo from before you permitted the site, that would be helpful too. Then we will process the release request. If the above procedures are completed, then you will be able to address any actions related to the H & H Quarry #2 and the Division should be able to close out the H & H Quarry #1.

If you have any question, please contact me at (970) 259-5861.

Sincerely,

Kate Pickford
Environmental Protection Specialist

CC: Betty Holley
