Subject: Request for Technical Revision, M-1990-025

RECEIVED

MAY 01 2013

Durango Field Office
Division of Reclamation,
Mining and Safety

Dear Ms. Pickford:

We wish to cancel the most recent technical revision (TR-1) for permit M-1990-025 (Hay Camp Pit) prior to transfer to a new operator, and not later than the 30th of September, 2013. This is the technical revision requested on the 7th of February, 2012, to allow location of a Hot Mix Asphalt Facility (HMAF) on the site.

If possible, assuming you approve this request, we will notify you by e-mail of the exact date that we wish to cancel the TR. We may need to use a HMAF between now and October, but wanted to make sure you were aware of what we are doing.

Please advise us of any procedures and fees which apply to this request.

Sincerely,

A handwritten signature in blue ink that reads "Casey McClellan".

Casey McClellan, Manager,
Four States Aggregates LLC/McStone Aggregates LLC
