**Re: Cresson Project; DRMS File No. M-1980-244;  
Technical Revision (TR-67) Approval**

Dear Mr. Dubois:

On May 6, 2013 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application submitted to the Division on April 4, 2013, addressing the following:

*TR Submittal- for Parts Storage Building and Lubrication Storage Building at Secondary Crushing Facilities.*

The terms of the Technical Revision No. 67 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division has reviewed this minor change for impacts to the financial warranty. The \$14,947 demolition cost estimate submitted with TR-67 was determined to be acceptable. When added to the previous estimated liability amount of \$128,380,274.00 before the submittal of TR-67, the new estimated liability is \$128,395,221.00. The performance bond currently held by the Division is \$130,143,873.21. Therefore, the surplus warranty is now \$1,748,652.21.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Tim Cazier".

Timothy A. Cazier, P.E.
