RE: *Yule Marble Quarry, Permit No. M-1999-058, TR2 Withdrawn*

I held a teleconference on this day with representatives from Colorado Stone Quarries, Inc. We discussed potential future expansion of their site. Sometime early in July they anticipate reviewing their future mining plans and potentially proposing major changes which will likely require amending or converting the permit. Plans regarding portal no. 6 will be addressed in a later permit revision. Therefore, TR2 is being withdrawn at this time.
