RE: SR-13A Mine, File No. M-1977-311, Amendment (AM1) Application Adequacy Review (7)

Dear Mr. Williams:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing the above referenced application in order to ensure that it satisfies the requirements of the *Colorado Mined Land Reclamation Act* (Act) and the associated *Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations* (Rules). On June 26, 2013 the Division approved the acreage reduction (AR-1), which released 2.96 acres from further reclamation responsibility and reduced the permitted area to 6.78 acres. As stated in the Division's May 9, 2013 letter regarding AR-1, the following exhibits in the AM-1 application package will now require revision to reflect the changes made to the permitted acreage.

1. Introduction
2. Page one of the application form
3. Exhibit A
4. Exhibit C
5. Exhibit E

Please submit your response(s) to the above listed issue(s) by Friday, July 19, 2013, in order to allow the Division sufficient time for review.

The Division will continue to review your application and will contact you if additional information is needed.

If you require additional information or have questions or concerns, please contact me at the DRMS Grand Junction Field Office.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dustin Czaplak", written over a blue circular stamp.
