Re: Club Mesa, DOE Lease CM-24 Notice of Intent (NOI) P-2009-014 Montrose County, Colorado

Request of Release of Bond

Mr. Means:

Energy Fuels Resources Corporation (EFR) has completed the drilling and reclamation as permitted under Notice of Intent P-2009-014. EFR is requesting that the NOI be terminated and the bond released on this project. The bond amount allocated to this project (\$100) should be returned to the EFR State Wide Prospecting Bond, #K07346323. A similar request has been submitted to the Department of Energy (DOE), manager of this parcel of Federal Land, which holds a bond of \$5,000.

EFR has completed the drilling and reclamation of the 8 holes described in the above referenced Notice of Intent prospecting permit. The initial prospecting work for this NOI was conducted in August through November 2009. The location, plugging, and other reclamation work of this project has been previously reported. All holes have been plugged and all surface work is complete. The holes were plugged in accordance with Regulations of DRMS and the stipulations of the DOE by backfilling with cuttings and installing at least 5 feet of concrete or expanding foam at the top.

The sites were scarified, seeded, and brushy material and rocks were scattered to help revegetation efforts. Treatments of noxious weeds have been ongoing, as needed, and it is the opinion of EFR that the revegetation is adequate for release.

If DRMS wishes to schedule a field inspection with EFR personnel, or have questions, please contact Dick White at 303-974-2152 or e-mail to dwhite@energyfuels.com. Thank you for your attention to this matter.
