RE: Uncompahgre Gravel Pit M2013-007 Baker's Letter

RECEIVED  
JUL 23 2013  
Durango Field Office  
Division of Reclamation,  
Mining and Safety

Wally,

Please find the following answers to Ms. Wheeler's concerns via Susan Baker.

- a. Ms. Wheeler fails to mention that I informed her that the list was not inclusive of the items that I placed on it and she could add additional structures to the list. I currently do not have permission to physically identify structures on her property.
- b. Ms. Wheeler's concern here is noted but we have to maintain an air quality permit for dust control and within feet of the southern edge of the road, agriculture crops such as hay, alfalfa and corn will be grown. On the northern side of the road a MSHA code berm will be built and landscaped as well as hay, alfalfa and corn will be grown between the berm and the County right of way. Between our property and Ms. Wheeler's property is a 60' County right of way with a gravel road. Per Montrose County's Road and Bridge maintenance code, the road receives very little maintenance due to the small amount of vehicle traffic. The existing County Road T has been and will remain a dusty road due to the lack of County maintenance. Our mining operations will not use the County Road T directly in front of her residence.
- c. See explanation of b above and in addition, currently a trucking company is Ms. Wheeler's neighbor to the West on County Road T.

The rest of the letter appears to be opinion and lacking of documentation for the claims.

Thanks, if I can be of further assistance let me know.
