Re: August 14-15 Hearing for 112c Application #m2013007: Uncompahgre Pit from Rocky Mountain Aggregate

As an interested person in the above-referenced 112c application hearing who is unable to be in Denver due to work obligations I am writing to request that arrangements be made to facilitate participation in the meeting via live internet feed in Montrose. The City of Montrose has the technological infrastructure necessary for this to happen.

I have written DRMS several times previously with concerns related to the accuracy and representations made in the application, and as a nearby property owner who will be adversely impacted economically should this operation go forward, I would like the opportunity to address my concerns directly to the Board during the August 14-15 hearing.

Please let me know as soon as possible if this request will be made available for my participation in the August hearing so that I may attempt to figure out how to build a space within my work day to be present for a tele- or video conference.

Sincerely,

Barbara Bernhardt
