RE: Uncompahgre Gravel Pit Damage Waiver

To Whom It May Concern,

Please find the attached structure agreement that is required by the State of Colorado Division of Reclamation, Mining and Safety to be sent to any landowner who has man-made structures within 200 feet of the permit boundary. The purpose of the agreement is to ensure that we, the permittee of the mine, will fix or replace any structures on your property that are within 200 feet of the permit area that we could damage. This is an extremely remote possibility, but nevertheless, it is required that we send this agreement to you. We have listed any man-made structures that fall within this area on the agreement in order to insure that damages that are proven to be caused by our operations will fall under the guidelines of the attached agreement. If you have any questions regarding this form, please call me and I can provide further explanation of this requirement by the State of Colorado Division of Mining, Reclamation and Safety.

Thank You,

Zane Luttrell
