**RE: Seneca II-W Mine; C-1982-057; TR80
Adequacy Review No. 2**

Dear Mr. Karo,

The Colorado Division of Reclamation, Mining and Safety received your response to the 1st adequacy review on August 15th, 2013. There are several items that will need to be addressed prior to the approval of the technical revision:

1. The following culverts are listed as "removed" on the revised Tables 13-5 of Tab 13 and 13-7-1 of Attachment 13-7. However, both of these culverts are depicted on revised Exhibit 13-2. ***Please verify if these culverts have been removed and revise the maps and/or the tables accordingly.***
2. Culvert PM-A5 is listed as an existing culvert on the revised tables. This culvert could not be located on the revised Exhibit 13-2 and 20-2. ***Please verify the existence of this culvert and revise the maps and/or the tables accordingly.***

The decision date for the revision is September 20, 2013. If you need additional time to address the Division's concerns please request an extension of the decision date. If you have any questions please feel free to contact me at (303) 866-3567 ext. 8120.

Thanks,
