Hi Susan,

Lewicki's office has prepared the adequacy response for TR-04, the As-Built Plans for the NHN-001 ditches at New Horizon North. I am forwarding you the electronic version, but a paper copy should be arriving in the Denver office. I would like to request your assistance with reviewing their responses.

The current decision due date is tomorrow. As you will see, they have requested that that date be extended to September 30, which I will gladly do. If you could have your comments back to me by September 20, that might leave them enough time to resolve any outstanding issues by the 30th.

Thanks, Susan, and let me know if you need either more information or more time.

Marcia
