Small capacity:

- 166 small capacity new and replacement well permit applications were received
- 171 small capacity new and replacement well permits were issued

Large Capacity:

- 29 large capacity new and replacement well permit applications, and Determination of Water Right applications, were received

Table 2 provides details on the individual pending large capacity new and replacement permit applications and Determination of Water Right applications.

Change Applications

Table 1 also gives a breakdown, by basin, of change of water right application activities for the last quarter:

- 8 new change applications were received
- 5 change applications were approved

Table 3 provides details on the individual pending change of water right applications.

Final Permit Summary

Below is a summary of the status of permits subject to Final Permitting as of July 31, 2017. The numbers do not include permits that are not subject to Final Permitting, such as for Denver Basin bedrock aquifer permits. Conditional permits counted in the table below that have not been issued Final Permits consist of either recently issued conditional permits for which the well owner still has opportunity to use the well and prove up the conditional right and be issued a Final Permit, or older conditional permits that are still pending evaluation and/or issuance of a Final Permit.

Final Permit Status as of July 31, 2017

Enforcement Items and Actions

For the period of May - July, staff has responded to a variety of complaints involving the perceived unpermitted use of wells and designated groundwater. Show cause letters and subsequent field inspections have been used to verify well permit compliance in many instances.

The issues described below were determined to require action during the last quarter.

UPPER BLACK SQUIRREL

Upper Black Squirrel Creek GWMD

- Staff has sent out 24 letters in the last month involving possible well permit violations associated with the commercial cultivation of marijuana, where it is believed that domestic wells are being illegally used to support the water supply in these commercial grows. The letters, in part, resulted from information supplied by the El Paso County Sheriff.

Because Staff has not verified the violation, we have chosen not to include the property owners' names in this report. However, based on the information provided by the sheriff, our own research, and responses from some of the well owners, we believe many of those well owners in receipt of our letters are indeed violating their well permits.

Staff continues to follow the described protocol below to address perceived violations associated with marijuana cultivation:

- Review the permit file to determine if the use may be allowed.
 - If we believe a violation is occurring, send out a certified show cause letter to the owner. The letter asks the well owner to complete a *Well Use Questionnaire* and get back to us within 30 days of the letter's receipt to further discuss the matter.
 - For the time being, if a field inspection is necessary to verify the violation or a cease and desist order is required to be placed on the well staff will postpone that action until we have more direction and resources from state government to safely and effectively address the violations.
- Juan and Luz Anrade are believed to be impounding water in the Bracket Creek. A show cause letter with a 30 day response period has been sent to the Andrades. We are awaiting their response.
 - Francis and Clayton Nickle are believed to be impounding water in the Bracket Creek. Recent aerial photography shows a pond on the property in question, which appears to be the result of a dam constructed on the creek. A show cause letter with a 30 day response period has been sent to the Andrades. We are awaiting their response.

KIOWA BIJOU

NKB GWMD

- It was reported that Darin Baessler has been using a small capacity livestock well in a feedlot and other commercial purposes. Staff has investigated the matter and it would appear the well is operating in violation of the permit. A show cause letter was sent to Mr. Baessler. He quickly responded and staff is now working with him to address the matter.
