The descriptions of irrigated acres have in some cases been simplified for publication purposes. Use Codes are: G for irrigation; B for municipal; Other abbreviations are: O for quarter; H for half; PT for part; Ctr for center(ed); Sec. and 30 for section; Ac. Ft. for acre-foot per year; TS and T for township; RNM and R for Range west of the 6th Principal Meridian; and G.P.M. for gallons per minute. Increased appropriations through existing wells are so noted by the term Inc. or Incr. in the description of acres column.

Those wells which have approved expanded acres or are consingled are so indicated by a "Y" in the expanded acres or consingled column in the main table, and the particulars are listed in the subsequent table. The permits in the "Expanded Acres" and "Consingled Acres" tables are listed in order of permit number.

Any person wishing to object to the issuance of any of these final permits must do so in writing, stating the permit number and the basis of the objection for each permit. A \$10 fee must be included for each permit objection. The objection must be received by the Colorado Ground Water Commission, Room 818 Centennial Building, 1313 Sherman Street, Denver, Colorado 80203, no later than July 27, 1927.
