February 19, 2016 Meeting

### MEMORANDUM

TO: Dick Wolfe, Executive Director - Ground Water Commission

FROM: Keith Vander Horst, Designated Basins Team Leader *K.V.H.*

SUBJECT: Staff Activity Report for November 1, 2015 through January 31, 2016

Various activities performed during the last quarter are briefly described below.

### New and Replacement Applications

Table 1 provides a breakdown, by basin, of permitting activity for the last quarter. Permit activities are summarized as follows.

#### Small capacity:

- 89 small capacity new and replacement well permit applications were received
- 74 small capacity new and replacement well permits were issued

#### Large Capacity:

- 34 large capacity new and replacement well permit applications, and Determination of Water Right applications, were received
- 26 large capacity new and replacement well permits and Determinations of Water Rights were issued
- 5 large capacity well permits were canceled

Table 2 provides details on the individual pending large capacity new and replacement permit applications and Determination of Water Right applications.

### Change Applications

Table 1 also gives a breakdown, by basin, of change of water right application activities for the last quarter:

- 8 new change applications were received
- 30 change applications were approved

Table 3 provides details on the individual pending change of water right applications.

### Final Permit Activities

Below is a summary of the status of permits subject to Final Permitting as of October 31, 2015. Conditional permits counted in the table below that have not been issued Final Permits consist of either recently issued conditional permits for which the applicant still has opportunity to use the well and prove up the conditional right and be issued a Final Permit, or older conditional permits that had been on hold pending the implementation of Senate Bill 13-72 on August 7, 2013 and ended up not to be subject to that statutory change.

Final Permit Status as of January 31, 2016			
Basin	Total Number of Permits	Total Number of Final Permits Issued	Percent
Northern High Plains	4097	4097	100%
Southern High Plains	1243	1182	95%
Lost Creek	372	372	100%
Kiowa-Bijou	872	870	99%
Upper Big Sandy	121	121	100%
Upper Black Squirrel Creek	163	154	95%
Upper Crow Creek	160	97	61%
Camp Creek	52	48	92%
<b>Total</b>	<b>7080</b>	<b>6941</b>	<b>98%</b>

### Objections/Hearings

Below is a list of pending cases. Details on these cases are contained in the Attorney General's and Hearing Officer's reports. The Staff took part in meetings, pre-hearing conferences, preparation of pre-hearing statements, and otherwise worked on resolving these cases.

- WC Resources, 15GW01 (change of use of 2 alluvial permits in Lost Creek)

Enforcement Items and Actions

For the period of November 2015 - February 2016 staff has responded to a number of complaints involving the perceived unpermitted use of wells and designated groundwater. Show cause letters and subsequent field inspections have been used to verify compliance on many of these complaints.

The matters described below have been determined to be violations occurring last quarter. Staff is in the process of working with the land owners/well owners to achieve compliance.

NORTHERN HIGH PLAINS

2016 Over-Pumping Orders

- On January 12, 2016, Staff issued over-pumping orders to three well owners in the Republican River Basin. These orders were issued after it was verified that the wells had exceeded their individually permitted acre-foot allocations during the 2015 water year. For the 2016 water year (defined as November 1, 2015 to October 31, 2016) the three wells will have their permitted appropriations reduced by the amounts they over-pumped during the 2015 water year. The following owners were issued over-pumping orders for the 2016 water year in the Central Yuma and Sand Hills GWMDs.

Central Yuma: Cure Land - 59 acre-feet over permit

Sand Hills: Lanny Harsh - 12 acre-feet over  
Colorado State Land Board (user - Cure Land) - 62 acre-feet over permit

Arikaree GWMD

- C.L. Karks was discovered to have commingled irrigation wells without a permit. The owner is applying to commingle the wells.

KIOWA BIJOU

(outside of management district)

- John Wellner was found to have excavated ponds on the property without well permits. A show cause letter was sent to Mr. Wellner and he responded agreeing to backfill the ponds. Staff will be performing a field inspection in the spring to confirm compliance.
- Keith and Nancy Wawrzyniak were found to have excavated a pond on their property without a well permit. A show cause letter was sent to the owners and they quickly responded. At this time, they are pursuing resolution of the violation through a well permit and replacement plan. They would like to maintain the pond for the "aesthetic property value".

#### UPPER BLACK SQUIRREL CREEK

- Paul Clarke and Miranda Kovach were discovered to have impounded surface runoff (collected in a pond). Additionally, the pond has been supplemented by the owners' small capacity well. A show cause letter was sent to the owners and they have agreed to backfill the pond and cease the unpermitted pumping of the well. A field inspection will be performed in the spring to verify compliance.
- Staff continues to work on the Blue Springs subdivision (a.k.a. Elliot) ponds complaints submitted by the District last fall. A field inspection performed on November 4, 2015 revealed a number of violations that will require the owners' attention, and staff is in the process of completing letters to address the violations identified on the 24 individual properties. Some owners have expressed a desire to pursue resolution by obtaining well permits and replacement plans and/or surface water storage rights and augmentation plans to legally permit the ponds.
