THANK YOU TO OUR SPONSORS

*Colorado Dairy Farmers, Colorado River Water Conservation District, Northern Colorado Water Conservation District, Hortau Irrigation Management Systems, Peterson Appraisal Company
National Young Farmers Coalition*

Discussion Questions:

1. *Per today's discussion what are the most promising ATM tools (legal, institutional, method/type, technical, etc.)?*
2. *What are the best next steps to move the ATM discussion forward?*
3. *Given what we know about ATMs to date, are they likely to be competitive on a larger scale with traditional buy-and-dry?*
4. *How can we help motivate M&I water users to look at this alternative type of source?*
5. *What is the best and most appropriate role of the state (e.g. incentivizing, funding, policy recommendations, removing obstacles, etc.)?*
6. *Do you have any comments or concerns about ATMs that today's summit did not address?*

Directions for Survey Question Voting:

1. *Get out your phone*
2. *Text **ATM** to the number 22333*
3. *You will receive a text message that you have joined the ATM session*
4. *For each question, text just the letter of your answer (A, B, C, etc.) in the same text thread*
5. *For the final question you may type any word(s) in response to the question*

****You DO NOT need to text ATM for each answer, only the first time to enter the session****
