

POLICY NUMBER: 20

SUBJECT: **CONSIDERATION AND APPROVAL OF FISH AND WILDLIFE RESOURCES FUND GRANT APPLICATIONS PURSUANT TO SUBSECTIONS 2-4 OF SECTION 37-60-122.2, C.R.S.**

EFFECTIVE DATE: May 17, 2011

POLICY: The Colorado Water Conservation Board (CWCB) will accept applications throughout the year for grants from the Fish and Wildlife Resources Fund for design plans, engineering, and construction projects to: (1) address impacts from the construction of water diversion, delivery, and storage facilities that require a permit, license, or other approval from the United States; and (2) respond to needs of declining native species and to those species protected under the federal "Endangered Species Act of 1973", 16 U.S.C. sec. 1531, et seq., as amended, in a manner that will carry out the state water policy.

Applications for grants from the Fish and Wildlife Resources Fund will be accepted in the following categories:

1. Mitigation Grants to reduce, minimize, or avoid undesirable impacts on fish and wildlife resources as outlined in the official state recommendation, i.e. the State Fish and Wildlife Mitigation Plan (Mitigation Plan).
2. Enhancement Grants to improve the habitat of fish and wildlife resources beyond existing conditions in the vicinity of the project.
3. Species Recovery Grants for the purpose of responding to needs of declining native species and to those species protected under the federal "Endangered Species Act of 1973", 16 U.S.C. sec. 1531, et seq., as amended, in a manner that will carry out the state water policy.

The Board shall make Mitigation Grants only if the applicant funds mitigation costs for the first 5 percent of the project's design, engineering, and physical construction costs (construction costs). The Board shall make Mitigation Grants for the costs of mitigation for the impacts to fish and wildlife resources from the construction, operation, or maintenance of water diversion, delivery, and storage facilities up to an additional 5 percent of a project's construction costs. Mitigation Grant disbursements shall not exceed 70 percent of the amount of the grant during any fiscal year. Mitigation grants shall be made only for recommendations in the Mitigation Plan. The Board does not intend to make Mitigation Grants for mitigation required outside of the Mitigation Plan. Mitigation should not include that already required by a Federal Record of Decision, County 1041 permit, or other permitting entity. The Mitigation Plan may be adopted as part of a Federal Record of Decision or other permit. If so, the Board shall fund only those components of the adopted Mitigation Plan that are not included as part of the permitting entity mitigation requirement. Mitigation grants shall only be awarded for a project after that project has received a permit, license, or other approval from the United States and/or other permitting entities.

The Board shall consider applications for Enhancement Grants after receiving a recommendation from the Wildlife Commission. The Board may award an Enhancement Grant with the concurrence of the Wildlife Commission.

Enhancement Grant costs will be shared equally by the CWCB and the Division of Wildlife.

The Board shall consider applications for Species Recovery Grants when funding is not available from the Native Species Conservation Trust Fund.

The CWCB may, in any year, approve Enhancement and Species Conservation Grants that the Board deems worthy of funding through the Fish and Wildlife Resources Fund. Mitigation Grants shall be funded and will take precedence over Enhancement and Species Recovery Grants. The CWCB will manage the Fish and Wildlife Resources Fund in a manner that, over time, distributes grants evenly between east and west slope applicants.

In the event that funds in the Fish and Wildlife Resources Fund are insufficient to fully fund a Mitigation Grant request, the applicant will receive disbursements of the grant as the General Assembly allocates such money for such purposes. The CWCB may determine that full funding is not available based on the number of Mitigation Grant applications and the distribution between east and west slope applicants.

Fish and Wildlife Resources Fund allocations will be made for both Board Policies 15 and 20 in the order that applications are received and approved.

The project applicant must have completed a fully executed funding contract with the CWCB within 2 years of the grant authorization by the CWCB or the Board will consider de-authorization of the grant.

PURPOSE: To establish an approval process for grants from the Fish and Wildlife Resources Fund.

APPLICABILITY: This policy and procedure applies to applications for grants from the Fish and Wildlife Resources Fund.

PROCEDURE: Prior to a Board meeting, the CWCB staff will prepare for the Board's consideration a summary of the technical, financial, and institutional characteristics of each proposed design plan or construction project. Each application will be reviewed for conformity with the goals and objectives of the CWCB Strategic Plan. Grant applications for Mitigation Grants shall be funded if the funds are available, and Enhancement and Species Recovery Grants will be considered after Mitigation Grants are fully funded.

The Board will consider and CWCB staff will evaluate and recommend to the Board Enhancement and Species Recovery Grant applications based on the following:

- Soundness of the project design, work plan or plan of study;
- Promotion of the goals and objectives of the Board's Strategic Plan;
- The need for the proposed project;
- The need for financial assistance; and
- Financial, technical, or administrative participation or coordination by all affected local governmental or other entities (in-kind or cost-share funding).

NOTE: Recognizing that future needs and responses to those needs cannot be predicted with certainty, the Colorado Water Conservation Board reserves the right to recommend for funding any design plan, engineering, or construction project that

it determines would: (1) address the fish and wildlife impacts from the construction of water diversion, delivery, and storage facilities that require a permit, license, or other approval from the United States; or (2) respond to needs of declining native species and to those species protected under the federal “Endangered Species Act of 1973”, 16 U.S.C. sec. 1531, et seq., as amended, in a manner that will carry out the state water policy.

Approved by the CWCB
