Subject: Notice of Party Status for Shoshone Water Rights Instream Flow Use
Date: Wednesday, July 2, 2025 2:28:13 PM

Hello Jackie,

Save The World's Rivers requests "Party Status" for the upcoming CWCB hearing for the "Shoshone Water Rights for Instream Flow Use on the Colorado River, Water Division 5."

Save The World's River has a program named "Save The Colorado" that has been active in the protection and restoration of the Colorado River since 2010. We have approximately 50,000 members and supporters throughout the Colorado River basin with the majority of those being in Colorado. We engage in public education and advocacy to achieve our mission which includes supporting Instream Flows Rights that benefit Nature.

After the Colorado River District applied to the CWCB to acquire the Shoshone Water Rights for the Instream Flow Use, we have been following the CWCB's process ([described here on the CWCB website](#)) and advocating to our members, the public, and the media in support of the River District's purchase. Given "Party Status" we will provide brief testimony at the CWCB's upcoming hearing in September.

Pursuant to ISF Rule 6m(5)(e), I will be the "person" representing Save The World's Rivers at the hearing.

Please let me know if you have any questions or if I need to provide any additional information.

Gary Wockner
