12:35 **Granby Diversion WSRF vote**

The Next Steps Committee recommends funding of the \$50,000 Basin Account request for modernizing the Granby Diversion and improving the Fraser River channel. This also includes a \$162,403 Statewide WSRF request, which is a separate fund. The project is supported and funded as well by West Slope and East Slope entities. As we heard, improvements to the diversion structure will work together with the larger Windy Gap Bypass project to reconnect the aquatic habitat of the Colorado and Fraser Rivers. It will also provide a recreational amenity in the heart of Granby. The applicants updated their application with more detailed information and the Next Steps Committee consensus is to recommend a positive vote by the full Roundtable. See attached docs for more info.
