**Public Notice Agricultural Water Protection Water Rights
Stakeholder Meetings Divisions 3, 4, 5, 6, & 7**

The Colorado Division of Water Resources will be holding five hybrid stakeholder meetings to discuss [proposed changes](#) to the Agricultural Water Protection Water Rights (Ag-PWR) Rules. Ag PWR is a unique type of water right previously only allowed in Divisions 1 and 2. It was expanded statewide by the Colorado legislature in 2024 (please see the [Beginner's Guide](#) for more information). Ag-PWR SWSP Rules detail the process for temporary leasing of a water right after it has been quantified and changed for Ag-PWR use in the water court. Below is a list of stakeholder meetings and locations. The links to join remotely will be posted on DWR's [Water Administration](#) page prior to each meeting. For more information, please contact Marie Sullivan at marie.sullivan@state.co.us.

The Ag-PWR SWSP Rules were finalized for Divisions 1 and 2 in 2016. Minor modifications are proposed to expand the Rules statewide. Comments and suggestions on the proposed statewide Rules can be provided through [this comment form](#).
